

Is Your Child At Risk For Sudden Cardiac Death?

*Anthony Burke, DO, FACC
Board-Certified Cardiologist*

It's estimated that more than 110 heart-related deaths occur in young athletes each year. Eighty percent of these victims experience no abnormal cardiac signs or symptoms before sudden cardiac death (SCD) occurs.

*Lower your child's risk.
Schedule a one-hour cardiac screening today:
706-651-4343.*

For eligibility, the following criteria must be met:

- Age 12-22*
- No current cardiac symptoms*
- No previous history of cardiac diagnosis/problems*

*\$180 (Cash or Credit Card Only)
No Insurance Required*
